The accompanying notes form an integral part of these financial statements

1. Nature of operations

Altiplano Minerals Ltd. ("Altiplano" or the "Company") was incorporated under the Business Corporations Act (Alberta) on March 5, 2010. On November 10, 2010, the Company was continued into the Province of British Columbia under the *Business Corporations Act* (British Columbia). The Company's common shares are listed for trading on the TSX Venture Exchange under the trading symbol "APN", on the OTCQB Venture Market under the trading symbol "ALTPF", and on the Frankfurt Stock Exchange under the trading symbol "9AJ1". The Company's head office is at Suite 210, 8429-24 Street NW, Edmonton, Alberta, T6P 1L3. The Company is focused on evaluating and acquiring exploration projects with significant potential for advancement from discovery through to production, in Canada and abroad.

2. Basis of presentation

These condensed interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 "Interim Financial Reporting". They do not include all of the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements for the year ended December 31, 2016, prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These financial statements were authorized for issue by the Audit Committee of the Company on May 29, 2017.

These condensed interim financial statements are presented in Canadian Dollars, unless otherwise noted and have been prepared on a historical cost basis. The Canadian dollar is the functional and presentation currency of the Company.

The accounting policies applied in preparation of these condensed interim financial statements are consistent with those applied and disclosed in the Company's consolidated financial statements for the year ended December 31, 2016, unless otherwise stated.

3. Management estimates and judgments

The preparation of these condensed interim financial statements requires management to make certain estimates, judgments and assumptions that affect the amounts reported and disclosed in its condensed interim financial statements and related notes. Those include estimates that, by their nature, are uncertain and actual results could differ materially from those estimates. The impacts of such estimates may require accounting adjustments based on future results. Revisions to accounting estimates are recognized in the period in which the estimate is revised.

The areas which require management to make significant estimates, judgments and assumptions in determining carrying values are consistent with those applied and disclosed in the Company's financial statements for the year ended December 31, 2016, unless otherwise stated.

4. Exploration and evaluation properties

Comet Joint Venture

During the period ended March 31, 2017, the Company entered into a definitive earn-in and joint venture agreement (the "Agreement") with Comet Exploration Ltd. ("Comet") in respect of acquiring a participating interest in a joint venture (the "CJV") on two copper and gold projects called the Farellon and Maria Luisa projects, which are located near the town of La Serena, Republic of Chile (collectively, the "Projects"). Comet is a private Australian exploration and development company with a focus in Chile principally in base metal and gold projects, held through its Chilean subsidiary.

Pursuant to the Agreement, the Company may earn up to an initial 20%, 35% or 50% interest in the CJV, by funding up to an aggregate of US$0.75 million, US$1.25 million, or US$2.0 million, on or before the date of acceptance of the Agreement for filing by the TSX Venture Exchange, March 30, 2017, and August 1, 2017, respectively.

As at March 31, 2017, the Company had advanced an aggregate of US$750,000 ($1,080,877), and held a 20% interest in the CJV. Total costs incurred by the Company on the CJV are summarized as follows:

	Acquisition	Exploration	Total
Balance, December 31, 2016	$ 135,190	$ -	$ 135,190
Acquisition costs	945,687	-	945,687

6. Financial instruments and risk management

The Company is exposed to the following financial risks:

i) Market risk
ii) Credit risk
iii) Liquidity risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

There have been no substantive changes in the Company's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous years unless otherwise stated in the note.

General objectives, policies and processes

The Board of Directors has overall responsibility for the determination of the Company's risk management objectives and policies and, whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure effective implementation of the objectives and policies to the Company's finance function.

The overall objective of the Board and the Company's finance function is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility and to ensure that risks are properly identified and that the capital base is adequate in relation to those risks. Further details regarding these policies are set out below.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices are comprised of three types of risk: currency risk, interest rate risk, other price risk.

Currency risk

Currency risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will fluctuate because of changes in foreign exchange rates. The Company's share capital as well as the Company's reporting currency is denominated in Canadian Dollars. The Company's currency risk is limited to its future payments denominated in foreign currency for its Orogrande Property and Comet Joint Venture.

Interest rate risk

Interest rate risk is the risk arising from the effect of changes in prevailing interest rates on the Company's financial instruments. The Company holds no interest-bearing financial liabilities, therefore interest rate risk is limited to potential decreases on the interest rate offered on cash held with its financial institution. The Company considers this risk to be minimal.

Credit risk

Credit risk is the risk of potential loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations. The Company's cash is held with reputable institutions in Canada. The Company is not exposed to any material credit risk. The Company's maximum exposure to credit risk is $1,596,274 (2016 - $58,557).

Liquidity risk

Liquidity risk is the risk that the Company will not meet its financial obligations as they fall due. The Company monitors its risk by monitoring the maturity dates of its existing debt and other payables. The Company's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

To achieve this objective, the Company regularly monitors working capital positions and updates spending plans as considered necessary. Monthly working capital and expenditure reports are prepared by the Company's finance function and presented to management for review and communication to the Board. As at March 31, 2017, all of the Company's financial liabilities are due within one year.

As at March 31, 2017, the Company's working capital was $1,549,370 (2016 - $36,978) and it does not have any monetary long-term liabilities.

Determination of fair value

The statements of financial position carrying amounts for cash, accounts receivable, and accounts payable and accrued liabilities approximate fair value due to their short-term nature. Due to the use of subjective judgments and uncertainties in the determination of fair values these values should not be interpreted as being realizable in an immediate settlement of the financial instruments.

Capital management

The Company monitors its equity as capital.

The Company's objectives in managing its capital are to maintain a sufficient capital base to support its operations and to meet its short-term obligations and at the same time preserve inventor's confidence and retain the ability to seek out and acquire new projects of merit. The Company is not exposed to any externally imposed capital requirements.

7. Related party transactions

Unless otherwise noted, related party transactions were incurred in the normal course of operations and are measured at the amount established and agreed upon by the related parties. The Company incurred and paid fees to directors and officers for management and professional services as follows:

For the three months ended	**March 31 2017**	**March 31 2016**
Management fees paid to key management and directors	**$ 51,500**	$ 7,500
Investor relations fees paid to a director	**15,000**	-
Office and admin fees paid to a corporation controlled by key management	**6,600**	11,955
	$ 73,100	**$ 19,455**

The Company has a deposit of $5,000 with a corporation controlled by key management for one month's office, accounting, and administration expenses and is included in prepayments and deposits as of March 31, 2017.
