Altiplano Announces Purchase of Orogrande Gold-Silver Property, Idaho

January 26, 2018, Edmonton, Alberta – Altiplano Minerals Ltd. (TSXV: APN) (“**APN**” or the “**Company**”) announces that, further to its press release dated December 1, 2016, regarding the option dated November 30, 2016, as amended (the “**Option**”) with Velocity USA, Ltd. (“**Velocity**”) to purchase the Orogrande Property, Idaho, APN has exercised the Option and acquired the mining claims comprising the property, subject to a 1.5% net smelter returns royalty, by the issuance of 2.5 million common shares of APN. In addition, Velocity has released the Company from any further obligation to carry out exploration work on the property.

The Orogrande Gold-Silver property is comprised of 198 lode claims covering approximately 4,000 acres in central Idaho and is located approximately 3 km south of the Friday-Petsite Gold Deposit. Previous work at the Friday-Petsite Gold Project has identified an indicated mineral resource of 647,000 troy ounces of gold and an inferred mineral resource of 590,000 troy ounces of gold (Simpson, 2013). Previous work by Velocity on the Orogrande Property has outlined significant gold in soil anomalies coincident with magnetic anomalies over several kilometers and on strike with the Friday-Petsite Gold Deposit.

CEO John Williamson stated, “We are pleased to have renegotiated terms with Velocity to acquire the Orogrande Project as it provided us with the increased flexibility to advance it at a pace that dovetails more closely with our Chilean projects.”

Osbaldo Zamora Vega, P.Geol, vice-president of exploration for Altiplano, is the qualified person as defined in National Instrument 43-101, and has reviewed and approved the technical contents of this press release.

About Altiplano

Altiplano Minerals Ltd. This release includes certain statements that may be deemed "forward-looking statements". All statements in this release, other than statements of historical facts, that address exploration drilling, exploitation activities and events or developments that the Company expects are forward-looking statements. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include market prices, exploitation and exploration successes, continuity of mineralization, uncertainties related to the ability to obtain necessary permits, licenses and title and delays due to third party opposition, changes in government policies regarding mining and natural resource exploration and exploitation, and continued availability of capital and financing, and general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements. For more information on the Company, investors should review the Company's continuous disclosure filings that are available at www.sedar.com.
